

City University London

School of Engineering and Mathematical Sciences

Engineering Drawing and Design, ME1110

Exercise code: DrE-1a
Exercise type: Individual
Exercise title: Freehand Multiview Sketching

Exercise Assignment:

- 1) Complete pages 2 and 3 attached in handouts.
In page 2 fill in your name and number faces and endpoints in the places indicated on views.
Page 3: Complete multiview drawings in 3rd angle projection in allocated spaces next to pictorial views
- 2) Use attached A3 template page. Draw border and title block on the page and fill in all fields.
In the same order of appearance transfer multiview sketches and pictorial drawings from page 3.

Exercise tips:

Always read exercise assignment carefully.

This is freehand sketching exercise. Only pencil and rubber are allowed. Arrange sketches neatly and ensure all letters and lines are according to BS8888.

Submit the exercise solution to U/G Mechanical & Aeronautical office, C108, in week 3 (check the deadline on web).

Ensure that your name, group and other relevant data are filled in.
