

Working on a research study? Doing a further degree? Need to use statistics? Reading research papers?

2 DAY SHORT COURSE

Introduction to research methods and medical statistics

Department of Optometry and Visual Science
City University London.

CITY UNIVERSITY
LONDON

Next scheduled course is in April

A well established short course that provides:

- Everything required to design and carry out a research study.
- 'Statistical literacy' for consumers of medical research without the mathematics!
- Using a computer package for statistics.
- Lectures, workshops, e-material and course booklet.
- High standard of teaching.
- Specifically designed for ophthalmology and optometry.
- Opportunity to discuss your research project with statisticians.

£400 (TBC) for the 2-day course including lunch and refreshments with discounts available for those pursuing a higher degree

2 DAY SHORT COURSE

Introduction to research methods and medical statistics

Department of Optometry and Visual Science
City University London.

Provisional programme of lectures and workshops

DAY 1

0830- 0900 registration
0900- 0930 introduction
0930- 1030 designing the research experiment
1030- 1130 presenting and summarising data
1130- 1200 break
1200- 1300 building blocks of statistics
1300- 1400 lunch
1400- 1530 testing the research hypothesis
1530- 1730 practical workshop

DAY 2

0900- 1000 association and prediction
1000- 1130 finding, reading and assimilating research
1130- 1200 break
1200- 1300 topics in medical statistics 1
1300- 1400 lunch
1400- 1500 topics in medical statistics 2 and Q&A
1500- 1730 practical workshop and "discuss your project"
