

## File locations for CATIA course

All locations are relative to the root directory for CATIA documentation. It is usually something like:

C:\Program Files\Dassault Systemes\b09doc

### Part Design

CATIA file required: no files required  
Tutorial 1.               ..\online\prtug\_C2\prtuggs01.htm

### Assembly Design

CATIA file required:  
..\online\asmug\_C2\samples\GettingStarted.CATProduct  
Tutorial 2.               ..\online\asmug\_C2\asmuggs01.htm

### Wireframe & Surface

CATIA file required:  
..\online\wfsug\_C2\samples\GettingStartedWireframeAndSurface.CATPart  
Tutorial 3.               ..\online\wfsug\_C2\wfsuggs01.htm

### Generative Drafting

CATIA file required: ..\online\draug\_C2\samples\GenDrafting-part.CATPart  
Tutorial 4.               ..\online\draug\_C2\drauggs01.htm

### Interactive Drafting

CATIA file required: no files required  
Tutorial 5.               ..\online\driug\_C2\driuggs01.htm

### Generative Part Structural Analysis

CATIA file required: ..\online\estug\_C2\samples\sample01.CATPart  
Tutorial 6.               ..\online\estug\_C2\estuggs00.htm

### Parameters and Formulas

CATIA file required:  
..\online\kwrug\_C2\samples\KwrStartDocument.CATPart  
Tutorial 7.               ..\online\kwrug\_C2\kwruggs01.htm
