

## 1 Install/Update a Chess-Mobius Integration feature

1. Select Help->Install New Software
2. Click 'Add...'
3. Click 'Archive...' and select the update site to install (CHESS\_profile\_update\_yyyymmdd.zip)
4. Select the feature to update. Be sure that the properties "Group items by category" and "Contact all update sites during install to find required software" are unchecked.
5. Click 'Next' and follow the wizard (click 'OK' if a warning pops up during the installation)
6. Restart the Eclipse application when prompted.
7. Repeat steps 1 to 6 for feature CHESS\_Mobius\_yyyymmdd.zip
