

This file describes the files in this archive related to the model transformation SysML - > SAN.

The files are briefly described below to guide the reader:

1. ***IS3_SysML2SAN.pdf*** describes an example of model transformation, which was used as a test case in the work.
2. ***CHESS-Mobius Integration Guidelines.pdf*** is a high level description of the model transformation.
3. ***Chess-Mobius Integration Installation Notes.pdf*** is a brief not on installing CHESS and setting it up to work with Mobius v2.5.
4. ***CHESS to Mobius TODO List.pdf*** is a brief summary of the issues recorded during the development.
5. ***ATMSystem.tar.gz*** is the SAN model generated by the plug-in. The file must be opened with Mobius v2.5.
